

AGILE REQUIRES CHANGES IN COST ESTIMATION SERVICES

- ❖ More frequent estimation support outside of budgeting cycle
- ❖ More communication with stakeholders and executive sponsors
- ❖ More emphasis on upcoming releases rather than full lifecycle estimate
- ❖ More focus on estimating the capability that can be delivered within a given budget
- ❖ More focus on technical debt in operations and maintenance (O&M) phase of lifecycle.

**Faster, Agile
delivery
requires faster,
more agile,
analysis**
